TOP SECRET

PREFACE

This report is one in a series on Soviet Ground Force and logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1PIC (DIA). The photographic analysis for this particular report was performed by the NPIC Photographic Analysis Group.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training area or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY 25X1D 25X1D 25X1D 25X1D

Marina Gorka Army Barracks and Depot (formerly BE No [REDACTED]) is located on the east side of Marina Gorka (53-30N 028-10E) (Figure 1). A spur from the Marina Gorka-Osipovich rail line serves the installation, and a primary road provides access to Marina Gorka. A military training area (TA-1) is located immediately north and east, and a moving-target tank firing range (TA-2) is located 4 kilometers (km) southwest.

The installation (Figures 2 and 3) covers approximately 420 acres and includes seven administrative buildings, 19 support buildings, 18 multistory barracks, 20 dependents quarters, 23 storage buildings, 24 vehicle/equipment

maintenance buildings, one possible vehicle shed, and three unidentified buildings.

Other facilities include an athletic field, three small arms firing ranges, a possible POL storage area, and a secured area containing two unidentified objects.

The area was covered by [REDACTED] TALENT photography and 12 KEYHOLE missions between [REDACTED]. Comparative analysis reveals the same general level of usage. The only significant change is the completion by [REDACTED] of eight barracks which were observed under construction in [REDACTED].

DESCRIPTION OF INSTALLATION

Railroad Service

A single-track spur from the Marina Gorka-Osipovich rail line provides service to a possible POL storage area.

Road Service

An all-weather road provides access to Marina Gorka.

Administrative and Troop Housing Areas

Area D1 (Figure 3) contains five administration buildings and 10 multistory barracks. Summer coverage indicates heavy activity with a marked decrease of activity in the winter.

Area D2 contains two administrative buildings.

Area D3 contains eight multistory barracks and 13 support buildings. This area was observed under construction in [REDACTED] and was completed by the spring of [REDACTED].

General Storage Area

Area E1 contains 13 storage buildings, three

added between [REDACTED] and the spring of [REDACTED].

Area E2, secured, contains two storage buildings. One building was removed between [REDACTED].

Area E3, secured, contains four storage buildings, and Area E4, also secured, contains four storage buildings.

POL Storage Area

Area G is a possible POL storage area; however, poor photo quality precludes description.

Other Buildings 25X1D

Area H1 contains two L-shaped buildings and one rectangular building of undetermined function. They were first observed on Mission [REDACTED].

Area H2 contains 20 dependents quarters.

Area H3, secured, contains two objects, unidentified due to the small scale and quality of photography.

Equipment Storage/Maintenance Areas

Area J1 contains six 250- by 60-foot maintenance buildings and one possible 165- by 65-foot vehicle shed. Their function was determined from [REDACTED] TALENT photography.

Area J2 contains one 290- by 35-foot maintenance building, one 210- by 35-foot maintenance building, two 180- by 60-foot maintenance buildings, fourteen 250- by 60-foot maintenance buildings, and two 165- by 65-foot support buildings. Identification is based on the pattern established from [REDACTED] TALENT photography.

Track activity in the areas indicates all buildings are utilized.

Athletic Field

Area K is an athletic oval 400 feet long and 250 feet wide.

Small Arms Firing Ranges

Areas L1 through L3 are 450- by 95-foot small arms firing ranges. Four support buildings are in these areas. Six firing ranges were revealed on [REDACTED] TALENT photography; however, only three ranges can be confirmed on KEYHOLE photography.
